Art Unit: 2838

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
2. The drawings are objected to because boxes FN, VK, IG, ME, SE, VE, AE, and BN in figure 1 and boxes S1, W, BN1, SG, ME, Rm, S2, and BN2 in figure 4 are not labeled or shown as to their use or purpose. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
3. The title of the invention is long and not very descriptive. A new title is required that is concise and clearly indicative of the invention to which the claims are directed.
4. Claims 1-15 are objected to because of the following informalities.

Art Unit: 2838

Claims 1-15 are vague and indefinite since in line 2 of claim 1 it is unclear whether "in particular of a motor vehicle" is or is not a claim limitation.

Claims 1-15 are vague and indefinite because in line 9 of claim 1 "the pulse intervals" lacks proper antecedent basis.

Claim 15 is confusing and incorrect since in line 2 "mans" makes no sense at all. It is suggested that "mans" be corrected to -means-.

Appropriate correction is required.

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-12 of U.S. Patent No. 10/089,248. Although the conflicting claims are not identical, they are not patentably distinct from each other.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 2838

Day (US 3,949,289 and 4,082,992), Cottrell (US 4,309,622), and ChAn (US 6,212,054) are cited to show similar circuit arrangements old and known in the art at the time of invention.

Milby et al (US 4,609,829), Merio (US 4,869,688), and Liencres et al (US 5,644,731) were cited to applicant in the parent application along with DE 31 10365, DE 197 02 116, DE 197 19 919, EPO 0 752 668, and EPO 0 993 996.
